Women in Geothermal

Q1 2023 - WING Newsletter

March 8th is International Women's Day!

Membership update: **3,000 WING members strong!** A nice way to celebrate International Women's Day!

Türkiye earthquake

A devastating earthquake recently struck Türkiye and Syria, and there is still a huge need for support. Any donation, no matter how small, will provide much-needed aid to those affected by the earthquake. AHBAP is a reputable aid organization working on the ground supporting survivors. Click the button below to help out.

WING Chapter Highlights-Spotlight Indonesia

Indonesia WING chapter soared in 2022!

With renewed vigor the [Indonesia WING](#) team grew and hosted many events through 2022. For Kartini Day, which celebrates women's equality, WING Indonesia presented a webinar with theme "Positioning Geothermal in the Energy Transition: What it means for Indonesia and WING Indonesia's Role", (image below).

Then in May WING Indonesia team held a May-Halal Bi Halal Gathering after Ramadhan, in collaboration with PT Pertamina Geothermal Energy.

The Core Team held an in-person retreat to work on WING Indonesia short and long term goals. Then in August there was WING virtual Zumba to celebrate Indonesia's Independence Day.

In September WING had a big presence during Indonesia International Geothermal Convention and Exhibition 2022 and had a booth in the exhibition for the first time as covered in the last quarterly newsletter. Events during IIGCE were social events, a sharing session from Star Energy, and a presentation in the plenary session titled Diversity as a Core Capability in Geothermal Resource Development. WING Indonesia is working on ways to collaborate with private companies in Indonesia, and has started discussions with PT Geo Dipa Energi (Persero). And then in November the WING team participated in 'Geothermal Goes to Campus' at the University of Gadjah Mada Yogyakarta with support from EBTKE Ministry of Energy and Mineral Resources.

#IWD2023 event by WING Indonesia!

Women and Finance: Enabling Financial Freedom for Women
Date: Friday, March 10, 2023

Event Recap: ARGEO, EGC, NZ

It was another busy season of regional and international geothermal events. In October European Geothermal Congress was held in Berlin (photo above). The Germany Team welcome WING members from around the world and hosted several events.

At the 44th New Zealand Geothermal Workshop in late November, [WING NZ](#) led a well attended panel discussion that explored the tangible returns of progressive values and policies in the workplace, and it was a great opportunity for our members to hear some of the latest changes being seen across the industry. This year WING NZ has been focused on having actionable discussions on recruitment practices and parental leave policies

within New Zealand, as well as focusing on member engagement and value. The NZ chapter is celebrating a successful 2022 with more meaningful events, the launch of our webinar series, and the growth of the chapter. Looking forward to continuing this hard work and seeing further progress in 2023!

48th Stanford Geothermal Workshop

After three years of no in-person event, the Stanford Geothermal Workshop was back in 2023 and so was WING Taco Tuesday!
